

Veterinary Industry- Hi-Heat Industries, Inc.

Let us help you keep your animals warm!

Depending on your application we offer different options of material to manufacture heaters for the veterinarian industry.

- Silicone rubber heaters provide dependable performance under rigorous conditions. Using these versatile and flexible heaters give you the ability to apply heat exactly where required.
- Polyester heaters are used to heat large areas very economically. These heaters can be custom designed and manufactured to fit your application.
- Please contact factory for additional materials.

Heated surgical table helps prevent hypothermia during small animal surgeries.

Applications:

- Heated kennels and cages
- Surgical tables
- Post-op and recovery
- Reptile terrarium
